EXPERIENCE

HashiCorp, an IBM Company, Remote

Product Designer

(Promoted from Intern → Associate Product Designer → Product Designer)

June 2022 - Present

- Led end-to-end design for Terraform's first AI remediation agent, decreasing merge time by **90%** for customers, reducing toil for critical fixes.
- Designed a workspace and stack recovery feature enabling enterprise-grade disaster recovery in HCP Terraform, directly contributing to **\$77M** in retained contract value.
- Established end-to-end design for key value tags, **tripling** tag creation in the UI, and enabling **108k** workspaces to be tagged in the first 6 months.
- Spearheaded module lifecycle management launch at HashiConf, engaging **300+** customers in the first 2 months, resulting in **15k** deprecated modules.
- Directed **2** internal design programs targeting new designer onboarding and creating a mockup library, accelerating mockup creation by **87%** across **14+** designers.
- Led cross-team Terraform UI refresh across **4** pages with **1.38M** views, boosting design system adoption and brand consistency, and reaching a **66%** approval rate.
- Drove product-led growth initiative, fixing **30+** onboarding bugs, increasing users reaching the next funnel stage **2.3x**.
- Scoped and ran product-led growth experiments, driving **143** new paid-tier conversions.
- Designed end-to-end UX, content, and user flows for Stacks CLI tool, reducing time-to-first-command by **31%** in early user testing.

Demandbase, Remote

UX Designer

March 2021 - June 2022

- Redesign account list creation and Salesforce integration using advanced selectors, reducing support tickets and **improving query latency 40%**.
- Led global table update to optimize information architecture, **boosting time on page 77% and active users 45%**.
- Designed a cross-ad campaign comparison feature, surfacing insights to clarify user decision-making.
- Introduced bulk actions to advertising campaign management, resulting in **74% faster** CRUD actions.

EDUCATION

University of California, San Diego

Bachelor of Science,
Cognitive Science, HCI

Minors, Computer Science
and Management Science

SKILLS

Technical

HTML, CSS
Javascript
Ember, Handlebars.js
Typescript
SQL, Snowflake
Git, Gitops
Agentic development
Claude Code, Copilot
Terraform, HCL

Design

Product-led growth
Figma
Design Systems
Visual Design
Interaction design
User flows
Accessibility
